# Secure Safe

## for protection of cash, valuables and laptop

*Looking for a safe to store cash, valuables, laptops, etc.? Look no further.*

The Secure Safe is designed to protect cash and valuables from the threat of theft. Items recommended for storage include cash, jewellery, passports, and digital cameras, to name a few. We can also offer a model which is particularly designed to accommodate laptops. The safes can be placed at home or in any business environment; the Secure Safe range offers effective security at an affordable price.

### Models

The Secure Safe is available in one size to hold cash and valuables. Our wall safe version is an alternative if you prefer to build your safe into the wall. For optimal protection of your laptop, we recommend the laptop size.

### Construction

The safes are constructed with a 5 mm solid steel door and 2.5 mm steel body. The bolt-work has two chrome plated bolts with a diameter of 20 mm.

### Locking

The Secure Safe offers key or electronic locking. The user-friendly electronic PIN-code lock can store your personal access code (3-8 digits). In case of an emergency the lock can be overridden electronically, with an emergency code, or mechanically with the supplied emergency override key.

### Additional features

The Secure Safe can be anchored to the floor or wall using the included fixing kit. In addition all units come with a removable shelf as standard.

### Design

The Secure Safe range will complement any user environment and are supplied in light grey powder coated finish. The electronic keypad is in dark grey finish.
