

Extensive Expertise

Security is a field that calls for specialist skills. Gunnebo has set up six Competence Centres, each dedicated to a type of security requirement and made up of individuals who are experts in their specific areas. These Competence Centres are Electronic Security, Secure Storage, Cash Automation, Entrance Control, Outdoor Perimeter and Indoor Perimeter.

This allows Gunnebo to address the full range of security needs and to work as efficiently as possible in each field of activity.

Customer-Focused

Gunnebo is one of the world's major players in security. The Group has an extensive portfolio of customers that includes large public bodies, such as local authorities, town halls, embassies, consulates, etc.

Gunnebo has developed a personalised approach to provide effective customised solutions and services.

Your Local Partner

Gunnebo's objective is to support its customers in implementing their security projects by offering them solutions that can be used securely, profitably and reliably over the long term. The Group has a market presence in more than 130 countries with 30 local offices around the world.

The international presence of Gunnebo allows the Group to offer its customers solutions that are perfectly suited to their specific requirements.

Environmental Policy and Core Values

Gunnebo follows a global environmental charter, developed by the Group to improve its performance in terms of protecting the environment.

Gunnebo has also defined a set of ethical guidelines that govern the day-to-day activities of all its companies and employees around the world. All of Gunnebo's companies are committed to the same Core Values, no matter where they are located: customer-focus, commitment to quality, professionalism, integrity and cooperation.

Certified Solutions

Gunnebo is committed to providing certified solutions. Quality controls are performed at every stage of the product development, design, commercial production and manufacturing processes. Many products have also been independently tested and certified by leading institutes around the world. Our anti-terrorist products, for example, meet the highest possible level of international standards (DOS and PAS 68).

Gunnebo security group has an annual turnover of MEUR 760 and 6,500 employees. We are suppliers of integrated security solutions for banking, retail and other sectors requiring high security protection. Our experience and presence makes your world safer.

Total Security for Transport & Logistics

A full range of solutions...

Transport and Logistics sector is, by definition, an international and ever-evolving field: multiplicity of exchanges, flexibility, development of new activities, variety of players and strong competition. All these factors contribute to a complex environment and the condition for a specific security adapted to the requirements of this sector. In this way, protecting logistics infrastructures and transport equipments is a main concern for all the Transport and Logistics industry. With our in-depth knowledge of critical infrastructures, technological expertise and a continuously developing range of products and solutions, Gunnebo offers Transport and Logistics companies the total security package, ensuring

reliability, flexibility and a high-level of quality.

Our extensive experience and skill in access and entrance control, outdoor perimeter protection and electronic security, makes Gunnebo the preferential partner of main players in Transport and Logistics.

We provide complete security solutions including equipment, software and value-added services. We are able to lead the process from start to finish, from architecture definition to systems integration, installation and implementation, and of course ongoing maintenance once installation is complete.

Electronic Security

Gunnebo produces and installs a range of electronic security solutions including access control, intruder alarms, CCTV systems, door management and remote surveillance.

Exterior Perimeter Protection

Gunnebo offers perimeter security to control the flow of people and vehicles. The range includes gates, fencing, palisades and road blockers.

...to provide total security for transport and logistics sites

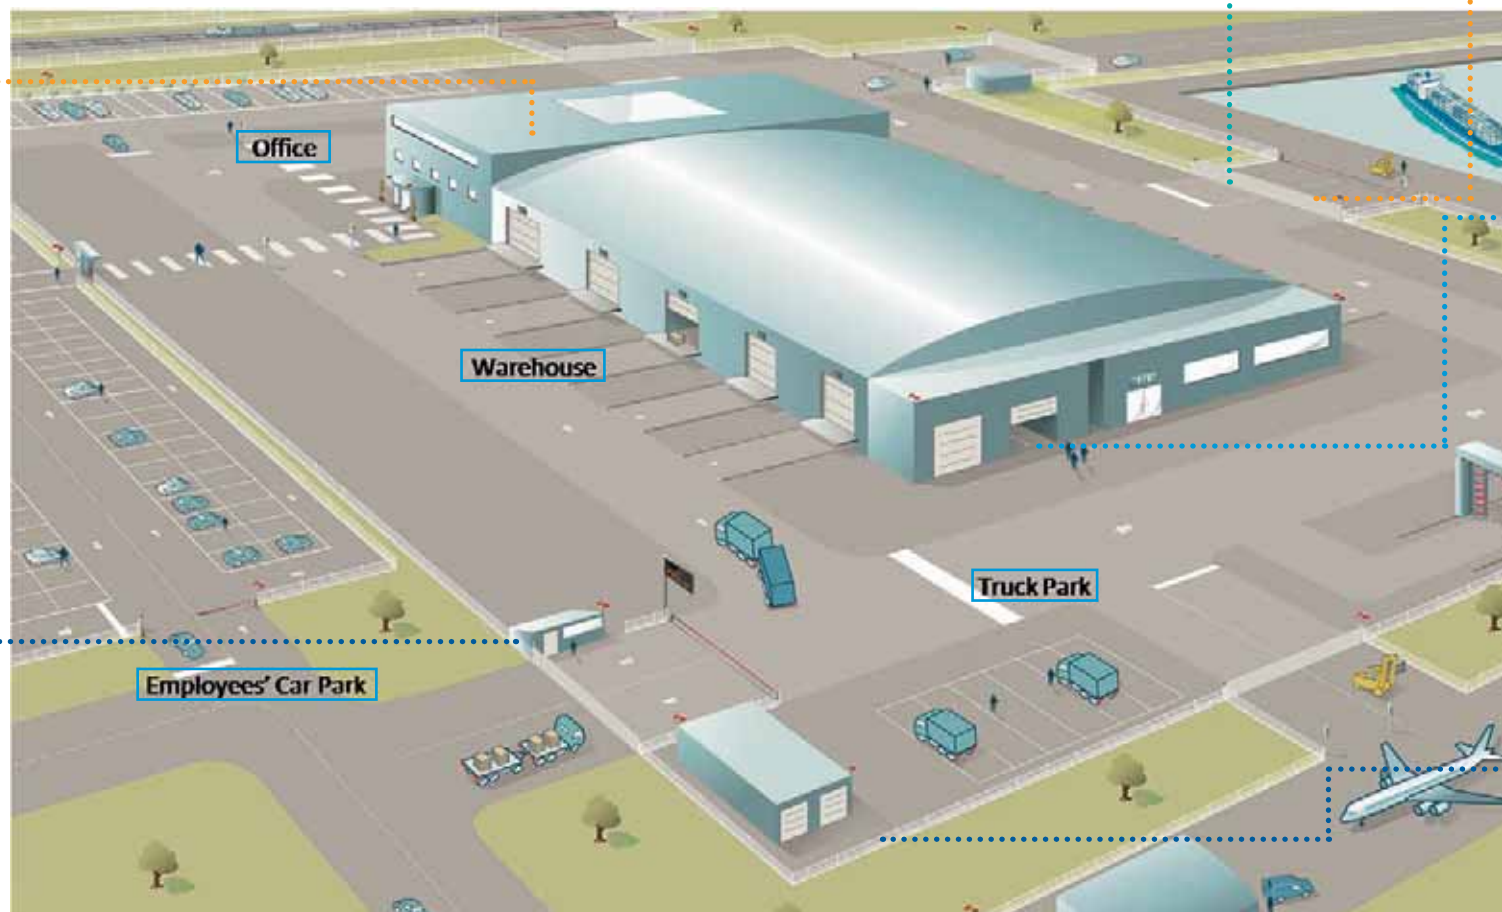

Secure Storage

Gunnebo protects documents, data media and other valuable items from theft and fire. Our offering includes burglary-resistant safes, fireproof cabinets and vaults.

Intrusion Detection

Gunnebo provides outdoor detection with infrared barriers and many other technologies such as lasers and radio waves.

Interior Entrance Control

Gunnebo controls the flow of individuals within the embassy and protects against attack. Solutions include security doors, revolving doors, bullet- and bomb-proof doors and man traps.

Perimeter Fencing

Gunnebo secures the exterior perimeter with a complete range of reliable fencing solutions for high-risk sites.
