

Rosengrens Caribbean

Fire protection of data media

Rosengrens Caribbean is a compact, lightweight data media cabinet, which ensures easy installation, low transport cost and low floor loading. The safes have been tested and certified to withstand a fire for 60 minutes. Caribbean has a smooth design, is elegant and ergonomic with its user friendly handles. A variety of fittings are available to suit the various media to be stored. Caribbean is supplied with a key lock as standard, an electronic code lock is optional. The cabinet fits under or beside the desk and with its compact design maximises the inner usable volume.

Fire protection: The Caribbean data media cabinet has been tested and approved to EN 1047-1 and certified by ECB+S to the fire resistance of S 60 DIS, which means 60 minutes fire protection. Caribbean also holds an American UL certificate to the Class 125 IH with fire and impact, which means 60 minutes fire protection.

Locks: Caribbean is supplied with a key lock as standard, an electronic lock is optional. Whichever the choice, the locks provided are of high security. The door is of a slam action type and when closed provides full fire protection even though not locked.

Design: Caribbean's smooth design is elegant and ergonomic with its user friendly handles. The colour is off-white RAL 9002 with a dark grey handle and stripe. Caribbean can be prepared for base-fixing.

Interior fittings: A variety of fittings are available to suit the various types of media to be stored ranging from CD/DVD:s, ZIP-drives to DLT tapes. The flexible shelf dividers are adjustable to take maximum advantage of the space available. All fittings are rounded to avoid sharp corners. The door opens a full 90 degrees making all items stored accessible.

Quality and environmental management systems: The Caribbean data media cabinets are manufactured in accordance with the ISO 9001 quality management system and the ISO 14000 environmental management system.

Maximum storage capacity of data media

Type of data media	Size in mm	Number of shelves		Maximal storage capacity	
		D37/D81	Media/shelf D37/D81	D37/D81	D37/D81
