

# Rosengrens MultiDoc

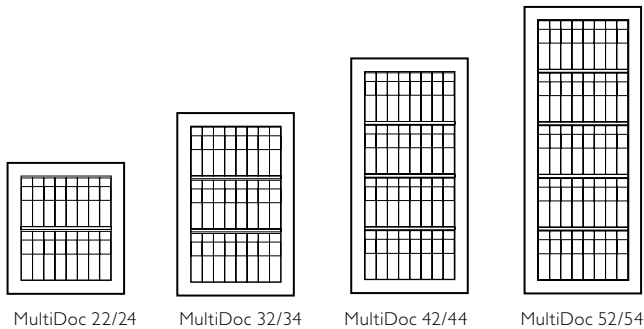

Fire protection of documents

Rosengrens MultiDoc is a complete range of fire-resistant document cabinets with a storage capacity for every need. The cabinets are available in four different sizes from the smallest cabinet with space for 16 binders to the largest cabinet with capacity for 50 binders. MultiDoc has a wide range of flexible interior fittings for efficient storage of documents files and binders. The cabinets can also offer combined storage. By adding a special insert you are able to store and protect data media such as CDs, DAT cassettes and DLT tapes in the cabinet. The whole MultiDoc range is tested and certified to withstand fire for up to two hours.

60 Diskette  
Ext. size 350x585x380  
Int. size 264x499x294  
Weight 28 kg  
Volume 38.7 litres

**Fire protection:** Rosengrens MultiDoc cabinets have been tested and certified by SP (Swedish National Testing and Research Institute), according to the Scandinavian norm NT Fire 017 to class 60 and I20 Paper. This means that the cabinets will withstand a fire for one or two hour depending on the class.

**Locks:** As standard the MultiDoc range is fitted with a high-security key lock. Other lock options are available: combination locks, electronic locks or a combination of locks. All our models can be prepared for dual locking and come with high-quality tested locks.

**Design:** The design is functional and elegant and the cabinets blend in well in most environments with its light colour scheme. The door has a solid, traditional bolt work operating horizontally as well as vertically. This offers a good level of burglary protection in addition to the fire certification. The cabinets are also prepared for floor anchoring.

**Quality and environmental management systems:** The Rosengrens MultiDoc cabinets are all manufactured in accordance with the ISO 9001 quality management system and the ISO 14001 environmental management system.

**Rosengrens Product Guidelines:** The construction of MultiDoc has been tested and approved to the Rosengrens Product Guidelines which are based on all relevant European norms. The aim is to verify the user-friendliness, safety and product lifetime, thereby assuring customers that our products live up to the highest expectations.

### Maximum storage capacity of binders

Model	Standard 60mm	DIN 75mm
MultiDoc 22/24	20	16
MultiDoc 32/34	30	24
MultiDoc 42/44	40	32
MultiDoc 52/54	50	40
